SENATE MAJORITY LEADER
TWENTY-FOURTH SENATE DISTRICT

The State of California is home to more than three million veterans, the largest state veteran population in America. These courageous men and women have fulfilled the highest duty to our nation by serving in the Armed Forces. We owe them a great deal.

California is committed to ensuring that all veterans, of all wars, receive the services and programs to which they are entitled.

This brochure lists a variety of services available to veterans and their families, including employment, rehabilitation, housing and training. Additional information on memorial sites and veterans homes is also included.

I hope this brochure will serve as a guide to the opportunities available to the men and women who have served our country so bravely.

Sincerely,

SENATOR GLORIA ROMERO Twenty-Fourth Senate District

A History of Veterans Day

"...remember the sacrifices of all those who fought so valiantly, on the seas, in the air, and on foreign shores, to preserve our heritage of freedom, and let us reconsecrate ourselves to the task of promoting an enduring peace so that their efforts shall not have been in vain..."

- President Dwight D. Eisenhower, 1954

In 1921, an unknown American World War I soldier was buried in Arlington National Cemetery. Similar ceremonies were carried out in England and France, where an unknown soldier was buried in each nation's highest place of honor (in England, Westminster Abbey, and in France, the Arc de Triomphe). These memorial gestures all took place on November 11, giving universal recognition to the end of World War I hostilities. The day became known as "Armistice day", dedicated to the cause of world peace.

A 1926 Congressional resolution proclaimed the holiday official; shortly thereafter, World War II broke out. Millions of Americans took part; hundreds of thousands died. A proposal was made in Washington to change Armistice Day to Veterans Day, making it an occasion to honor those who served America in wartime. President Eisenhower signed it into law in 1954, and November 11th become a day to honor American veterans of all wars.

Since then, three more unidentified American war dead have been interred in Arlington Cemetery: one each from World War II, the Korean War, and the Vietnam War.

Veterans Day continues to recognize the important contributions of those citizens whose military service had a profound effect

on our history. It is a celebration that honors veterans for their patriotism, love of country, and willingness to serve and sacrifice for the common good. The celebration also provides millions with a greater appreciation of this significant part of our national heritage.

Currently, there are over 25 million veterans in the United States and over 45 million survivors and dependents of veterans. They represent nearly 1/3 of the United States population.

California Veterans Memorial Registry

California maintains more than 500 veterans memorials throughout the state, ranging in size and description from small roadside plaques to large structures, including buildings and bridges. In 2000, Senate Bill 1635 created a registry that would catalogue these memorials.

That law provided for the establishment of a Veterans Memorial Registry, to be made publicly accessible on the web site of the California Department of Veterans Affairs (CDVA). The registry provides the location and condition of all known veterans memorials in California.

The CDVA is currently collecting information for inclusion in this registry. A survey form is available on the web site to assist in identifying these commemorative structures: www.cdva.ca.gov/registry

California Department of Veterans Affairs 1227 O Street, Room 300 Sacramento, CA 95814 Veterans Memorials in Capitol Park

Designed in the 19th century as a Victorian garden, Capitol Park surrounds the State Capitol building with 40 acres of trees and plants from around the world. Today, the park includes many historical monuments, including those erected in honor of our country's veterans.

Civil War Memorial

Situated in the center of the park, behind the trout pond, this grove of trees was the first war memorial in Capitol Park. Dedicated in 1897 by the Ladies of the Grand Army of the Republic, the grove was designed with more that 40 saplings transplanted from various Civil War battlefields.

Mexican-American Veterans Memorial

Located across from the State Capitol, this memorial was dedicated in 1951 by the Society of Mexican Mothers to soldiers of Hispanic descent who served during the second World War.

Spanish-American War Memorial

Located near the trout pond, the memorial of "The Hiker" honors those veterans of the 1898 Spanish-American War.

California Vietnam Veteran's Memorial

Situated in the northeast corner of the park, this memorial was built entirely with donated funds. The names of 5,822 Californians who gave their lives or are listed as MIA (Missing in Action) are included on 22 black granite panels.

California Veterans Memorial

Dedicated in 1998, this unique memorial honors <u>all</u> Californians who served in all U.S. wars, regardless of branch, rank or

duty. A registry of veterans is accessible through a computer kiosk.

Veterans Homes of California

One of the missions of the CDVA is to provide veterans, and sometimes their dependents, with rehabilitative, residential and medical care and services in a homelike setting. These facilities offer veterans a therapeutic environment that provides support and encouragement to live quality lives. CDVA operates three veterans home facilities:

Veterans Home of California, Yountville (founded 1884)

Attn: Admissions and Information P.O. Box 1200 Yountville, CA 94599-1297 800-400-8387 800-404-8387 (Public Information)

Attn: Admissions 700 East Naples Court Chula Vista, CA 91911 619-482-6010 888-857-2146 (Toll Free)

In 1999, Assembly Bill 193 established the Governor's Commission on California

Veterans Homes. Its purpose was to advise the Governor and Legislature on the establishment of sites for future veterans homes in areas currently underserved, specifically the San Joaquin Valley and the Los Angeles Basin. The Commission was also to consider sites for a specialized facility dealing with Alzheimer's Disease and dementia.

In August 2002, legislation was signed authorizing five new veterans homes in Lancaster, Saticoy, Los Angeles, Shasta County and Fresno County. Two new units for veterans with Alzheimer's are slated for the Los Angeles and Yountville homes.

Veterans Cemeteries in California

National Veterans Cemeteries

www.cem.va.gov

One of the missions of the U.S. Department of Veterans Affairs (USDVA) is to maintain national veterans cemeteries; the National Cemetery Administration (NCA) currently oversees 120 cemeteries throughout the country. It provides burial space for veterans and their eligible family members, maintains each site, and administers grants for establishing or expanding existing state veterans cemeteries. For more information on eligibility requirements, call 1-800-827-1000.

There are six national veterans cemeteries in California. At this time, only the San Joaquin and Riverside cemeteries are open for new burial; the remaining are closed to all but dependents of veterans already buried there.

State Veterans Cemeteries

California is one of many states that has established state veterans cemeteries through the VA's State Cemetery Grants Program. Eligibility is similar to that of national cemeteries, but may include residency requirements. Although funding is provided through the grants program, state veterans cemeteries are run solely by each state.

While there are no current state veterans cemeteries open, there is one under

construction at Igo, near Redding in Shasta County. It is expected to open by December 2004. The state veterans cemetery located at the State Veterans Home in Yountville is for residents of the home, with very few exceptions.

Resource/ Directory Guide

The following list of resources and web sites is designed to assist veterans in researching services, special entitlements, benefits, etc. Before applying for any entitlement claims, however, please be sure you are aware of the following:

Whenever you apply for any veteran's entitlement, you will be asked to provide a copy of your military discharge document, commonly known as a "DD-214". You may want to have your DD-214 recorded at your county recorder's office, at no charge. By doing so, you will be able to obtain a free official copy when the need arises.

Be sure to look into the security measures at your county recorder's office. If you are concerned about identity theft, you can keep your DD-214 in a safe place, such as a strong box, or bank safety deposit box. Make copies only as needed.

If you have lost or misplaced your DD-214, obtaining an official replacement from the Military Personnel Records Center in St. Louis, Missouri, may take up to three months or more, thus delaying your ability to obtain medical care and other entitlements. You can also contact your local County Veterans Service Officer for assistance. See pages 11 - 13 for a county-by-county listing.

U.S. Department of Veterans Affairs (USDVA) www.va.gov

The Department of Veterans Affairs is responsible for providing federal benefits to veterans and their dependents. It provides significant education and vocational rehabilitation benefits, home loans, service-connected disability compensation, medical and dental care, burial benefits, readjustment counseling and life insurance. There are three regional offices in California:
